

In regards to LPFM service taking priority over regional/national services, i am firmly AGAINST it. One radio station that would be severly missed is K-LOVE(94.3 here). The positive influence this station has over myself and many others is RARE and a valuable resource. The effect of an LPFM service displacing K-LOVE would be felt throughout this country. Their genuine sincerity towards promoting good moral standings in children, teens and adults alike is not easily found in many places. This stations survival is of the publics interest by promoting a peaceful, friendly, and family orientated alternative to the bombardment of violent and negative music. Please take into consideration this huge potential loss if LPFM is pushed further. Thank You for your time
